

The diagram illustrates the maximum printing area on a page. A large light blue rectangle is centered on a white background. To the left of this rectangle, there is a vertical green dashed line. To the right, there is a vertical green solid line. The top and bottom edges of the blue rectangle are aligned with the top and bottom edges of the white page. The text 'Max printing area 180x220 mm' is centered within the blue rectangle.

Max printing area 180x220 mm

The diagram illustrates the layout of a book page. A large light blue rectangle represents the 'Max printing area 180x180 mm'. This rectangle is centered within a larger white area. To the left of the blue rectangle, there is a vertical dashed green line. Further to the left, a solid green line outlines a rectangular area, with diagonal lines extending from its corners towards the top and bottom edges of the page. To the right of the blue rectangle, there is a wide white margin. On the far right, a solid green line outlines the edge of the page, which has a slight inward curve at the top and bottom corners.
